Fahad Tariq Aziz

Associate Software Engineer

👤 Profile

Skilled in MERN Stack, Next.js, Angular. I have gained a strong foundation in web development and languages such as JavaScript, React, Nodejs, HTML, CSS, JAVA. Also experience with Agile Methodologies.

💼 Employment History

MERN Stack Intern at Software Alliance
June 2023 — August 2023

- Working closely with the Software Alliance team, I actively contributed to the execution of web projects, refining my expertise in technologies such as REACT, Bootstrap, JavaScript, and backend frameworks like EXPRESS, Node.js and CSS like tailwind CSS and modular CSS.

- Participated in code reviews, debugging sessions, and sprint planning meetings, gaining insights into agile development methodologies and project management practices.

Web Development Intern at TCP Software
June 2022 — September 2022

- During a three months internship TCP Software Lahore, I actively participated in web development projects, gaining valuable hands-on experience in front-end and back-end development technologies.

- Collaborating with their professionals, I contributed to the development and implementation of web projects, honing my skills in REACT, HTML, CSS, JavaScript, and backend frameworks as Node.js.

🎓 Education

Bachelor of Science in Software Engineering, Comsats University Islamabad, Lahore Campus (2020-2024).
CGPA: 3.4

📊 Courses

- HTML, CSS, JAVASCRIPT for Web Developers, 10Pearls University

📊 Projects

- Developed a Latest News, Crypto, and Blogs website with External and Internal API functionality using MERN Stack.

- Created a full fledge Ecommerce Website with query handling, comprehensive features including full Filtration, Payment Gateway, Reviews, Emails, Admin, and User functionality using MERN Stack
